## **PACKING**

Please ensure that your shipment is **NOT** skidded. It must be packed in separate boxes and individually labeled. Contact your TWI representative for further details.

Due to multiple handling of freight cases TWI urges exhibitors to use strong wooden cases. Bolted returnable types of cases that offer protections from the elements are ideal. If your cases are secured with a lock or combination please provide the key or combination for Customs purposes.

## **EXPORT PERMITS/LICENSES**

It is the responsibility of each exhibitor to supply the forwarding agent with the forwarding agent with any applicable export licenses or license number prior to the goods leaving the country. Any packing that does not comply with these requirements will be refused, destroyed, or returned to its origin, resulting in a considerable delay.

Please contact your TWI representative if you have any questions regarding the NMWP rule.

## **SHIPMENTS CONTAINING BATTERIES**

Please contact your TWI Representative as soon as possible if you are shipping batteries, or your equipment contains batteries of any kind (including laptops/tablets), so that we may inform you whether IATA packaging and labeling requirements pertain to your shipment.

We have provided labels if they are needed. These labels must have the telephone number of a person knowledgeable about the shipment. It is not required to be monitored at all times that the package is in transit. It is acceptable for the number to be monitored during the company's normal business hours in order to provide product-specific information relative to the shipment. This cannot be a toll-free number.

**A material safety data sheet (MSDS) is required for all battery shipments.**

*Failing to inform us ahead of time regarding any batteries that are contained in your shipment may result in delays or refusal by the airlines to accept the shipment.*
