## Custom-made security services for your exhibition

### Booth surveillance and access control

Our agents are at your disposal to protect your booth from theft and vandalism during the build-up, the exposition, and tear-down phases – either on a 24 hour basis or by day or by night. Securitas can also assist you with access control (front line or second line behind your host/hostess personnel) to the VIP areas of your booth reserved by invitation only. We are also able to train your staff and hostesses to create a safer and more secure environment on the booth(s) by providing them with certain measures and precautions they should practice.
